8 steps to securing your property in Champion Lakes

1. Finance

Do you have a budget? Are you looking for land or a house and land package? The best place to start is with a finance broker to look at your options and get finance pre-approval.

2. Block

Time to select the right block for you. Our specialist sales consultants can assist you with selecting the right block based on size, orientation, frontage and also your budget.

3. Contract

Once you have chosen your block it is time to lock it in and sign your contract. This will include all of your time frames for paying your deposit, getting finance and settlement.

4. Settlement

You will need to engage a qualified settlement agent now who will assist you with getting the land title transferred over to you when it's time to settle.

5. Builder

Congratulations... You now own the land! Do you want to build straight away? You can find your own builder or speak to our consultants to put you in contact with some great options.

6. Planning

You now have the house designed and costed by the builder, so it is time to lodge it for approval. In the meantime, you may have some selections and finer details to work on.

7. Construction

When the house is approved the builder can get underway. You will make ongoing progress payments to the builder as you sit back and watch your home come to life!

8. Move In

Your house is finished and after you do your final inspection with the builder you will get handover and the process of moving in or renting the property out is underway.
